RATHWELL NEWS

The Annual Thanksgiving Service will be held November 7th in the Rathwell School House (Sunday next), at 3 o'clock. Preacher—F. Crowson. All are welcome. Note change in time—3 o'clock p.m.

"Who is my neighbor?" asked the man in Bible times. Speaking off-hand, we should say anybody who needs a cup of sugar.

Tact is the quality that prompts a college boy to write a long letter and not mention money until the postscript.

The use of good English would have drawbacks. There is enough failure to understand one another now.

The world moves. Once people slaved for bread; but their progeny avoid it because it is fattening.

SAVE THE CHILDREN FROM
DIPHTHERIA

Dr. Hugh Cumming, Surgeon General of the United States Public Health Service, challenges all parents of the country to save their children from unnecessary diphtheria.

"Although diphtheria attacks persons of all ages, he says, 'it is pre-eminently a disease of children, especially of children from one to six years of age. The disease is also much more apt to be fatal in young children, so that prevention is especially important in the pre-school period. About 67 per cent of the deaths from diphtheria in the U.S. Registration Area are in children under 5 and 85 per cent in children under 10 years of age.'

With the advent of November, we are in one of the most dangerous seasons of the year, for during this month and December and January diphtheria takes its heaviest toll of health and life.

"In general, according to Dr. Cumming, 'Diphtheria is more prevalent and more fatal in the Northern than in the Southern States; and the death rate is higher in cities than in the country. The well-to-do seem to suffer as much as do the children of the poor.'

The study of the figures of Dr. Cumming shows since the year 1920 real danger in the scourge of childhood. With 120,000 cases, however, and 10,500 deaths throughout the United States in 1924, there is need for everyone to see that his children are protected against diphtheria.

As long as diphtheria continues at all it is not only causing a great deal of suffering to a great many children, and heartbreak in thousands of families where the children die but it is always in danger of assuming the proportions of a monstrous epidemic. We do not need to be reminded of the influenza which swept the country during 1918-1919, nor do we want to see any disease that can readily be wiped out sweep in similar fashion through the ranks of childhood. Diphtheria of the type we now know seems to have begun somewhere between the years of 1850 and 1860 and after that time it spread over the entire civilized world.

"In the United States," says Dr. Cumming, summing up the history of the disease and thereby pointing out the menace we are averting, 'following the invasion of the pandemic about 1855, diphtheria continued to be highly prevalent and very fatal until about 1900. Its course differed in different parts of the country; but, in general, the mortality increased from about 1855 to 1885 or 1890, when the death rate reached as high as 200 per 100,000 or over in some of the large cities. Since about 1885 to 1890, the death-rate has steadily declined, due in part to a decreased number of cases, but more to a decreased case-fatality, which, since 1896, may be attributed to it because it is fattening, antitoxin in treatment.'

A cure is a miracle but prevention of a disease is as beautiful as a law of nature or of God. When every father and mother realizes that the need for an antitoxin, diphtheria will cease to exist. The means are perfected to-day which will make your children safe from infection. If one of them should by any chance get diphtheria, the means are perfected for saving his life.

As Dr. Cumming phrases it, 'There are three lines of attack for the control of diphtheria, namely: "1. Protection against exposure to virulent diphtheria germs. "2. Immunization by Toxoid of susceptible persons, so that if exposed to the disease they will not contract it. "3. Curative treatment, chiefly by the administration of antitoxin. "All three lines of attack must be followed for the most effective prevention."

Your own private physician or your local or Provincial board of health will give you any information and assistance you may need in your effort to protect your own children and the children of your community.

Where Local Boards of Health or other organizations are forming clinics for the administration of antitoxin, it is urged that they also offer vaccination against Smallpox. The two treatments can be advantageously combined.

There is no risk in combining the two prophylactics, such a procedure has become routine with officials of the Provincial Board.

ST. ANDREW'S PRESBYTERIAN CHURCH

Rev. A. C. Wishart, minister.
Sunday, November 7th—
THANKSGIVING DAY SERVICES at both diets of worship.

11:00 a.m.—"Thanksgiving, Our Duty to God."
7:30 p.m.—"The Ungrateful Nine."

Sunday School and Young Men's Bible Class at close of morning service.
Ladies Aid will meet on TUESDAY at 3 p.m. instead of Monday.
Prayer meeting Wednesday evening at 8 o'clock.
C. G. I. T. girls under the leadership of Mrs. F. Morris will meet in the church on Thursday evening at 7:30 p.m.

Special Thank Offering for missions will be taken by envelope, at the Sunday Services.
Special Thanksgiving music at both services.
There will be a song service at 7:15 for fifteen minutes prior to the evening service.

A cordial welcome to the services especially to those who have no church home.

CANADIAN LEGION MASQUERADE BALL WAS GREAT SUCCESS

The Masquerade Halloween Ball under the auspices of the Canadian Legion (Macleod Branch) proved a huge success. The hall was packed with dancers early in the evening and nearly every costume imaginable was pictured. There were dainty pierrottes and equally handsome pierrots, chinamen, Indians, Arabs, Egyptians, French maids, Charlie Chaplins, Maggie and Jiggs' ladies of every reign from the time of Henry VIII to the present, novelty costumes and a gang of tramps bewhiskered and dishevelled, yet even so securing fairies and lovely nymphs to dance with. The prizes for the best costumes were as follows: Ladies' last, Miss Olive Lambert (Early Victorian); Gents' last, Vernon Gove (Cigarette Box); Ladies' comic, Miss Velma Kirk (Old Dutch Cleanser); Gents' comic, Dick (Chinaman). The judges' decisions were well received and they are to be congratulated on their choice of costumes which were well worthy of the handsome prizes awarded. At midnight a dainty luncheon was served after which dancing was enjoyed until 2 a.m. The committee in charge of the ball are to be congratulated on its success. The first local orchestra furnished first class music, and the dancing program was greatly enjoyed. The next big dance to be put on by the returned boys association will be the Annual Armistice Ball on November 8th, which according to all accounts will be bigger and better than ever.

A professional tennis player is one who buys her frocks instead of accepting them as rewards for playing here and there.

THE EMPRESS THEATRE — CURRENT ATTRACTIONS

WONDER DOG SEEN IN ROLE OF WOLF—RIN-TIN-TIN PROVES GREAT ACTOR IN HIS NEW PICTURE

Most of the world loves dogs, but outside of those who are serious enough about their affections to go to dog shows, dog lovers managed to get along well enough for generations without paying good money to watch dogs in the theatre, excepting, of course, the trick dog acts that some like and others walk out on. So it is not just because people love dogs that they flock in to see Rin-Tin-Tin when he appears in motion pictures. There are plenty of dogs just as beautiful to look upon in the streets; more of them in the dog shows; and any number who could possibly out-trick him in vaudeville stunts.

But people do pay good money to see Rin-Tin-Tin, and they keep going back to see him whenever he appears in a new picture. And this is not because he is beautiful and smart, although he is both of those things. It is because he has a personality that registers just as effectively as does John Barrymore's. It is because like any great actor, in addition to personality, he has an instinctive power of expressing emotion that makes everything he does vividly real and memorable.

Rin-Tin-Tin is a great box office attraction because he ranks with the best of screen actors. And now he is proving once again the quick vitality of his ability in his new Warner Bros. picture, "The Clash of the Wolves," which opens at the Empress Theatre Friday and Saturday.

"The Clash of the Wolves" is a stirring melodrama of the wolves in the Southwest cattle lands. Rin-Tin-Tin appears as the leader of the gang of wolves. His supporting cast of humans includes June Marlowe, Charles Farrell, Pat Hartigan, Heinie Conklin, and Will Walling. The story was written by Charles A. Logue, and Noel Smith made an excellent job of the direction.

EAST AND CENTRE CANADA IN GRIP OF WINTER

Winnipeg, Nov. 2.—Telegraph companies today were contending with wintry conditions in eastern and central Canada, and for a time this morning Winnipeg was isolated. Sleet and snow played havoc with telegraph wires, but other electrical services were not hampered.

Winnipeg was cut off from Eastern Canada for several hours, but service was resumed shortly after 10 o'clock. In the west, the wire delay was of short duration.

A new blanket of snow was received here today, and it was snowing lightly at 11 o'clock. Snow is general in Manitoba, but in Saskatchewan furies have been confined to isolated districts.

The weather prophet offers no relief, forecasting cold tonight and snow flurries in Saskatchewan and Manitoba.

Conditions vary in Alberta, but the weather continues fine for threshing, which is nearing completion. Edmonton and northern districts reported "cold and part cloudy," while in Calgary and central areas it was "clear and warm."

Wet Snow in Ontario

Ottawa, Nov. 2.—Eastern and Northern Ontario is today in the grip of the first important snow-storm of the season, and the country is blanketed in a mantle of white. The "wet" snow tied up telegraphic communications for a time this morning.

The telegraph companies report the greatest trouble around North Bay, and the telephone service encountered its chief difficulties around Hawkesbury, on the east, and southern North Bay.

Rain, which started shortly before midnight, turned into "wet" snow-fall, which continued throughout the

EMPIRE CONFAB MAY LAST UNTIL NOV. 21; KING IN HURRY TO LEAVE

London, Nov. 3.—(By Cable from George Hambleton, Staff Correspondent of the Canadian Press.)—Another three week's work in all probability lies ahead of the Imperial conference. Efforts are being made to speed up. Adjournment of the conference by November 15 is suggested but in view of the constitutional issues raised by Premier Hertzog, there are numerous details still to be dealt with by committees and it is doubtful if the conference can complete its work before November 24.

Premier King is making arrangements to be back in Ottawa for the opening of parliament early in December. He expects to spend a few days in France before sailing for Canada.

The Irish Free State is issuing invitations to the premiers of the dominions to visit Dublin before returning home. But unless the conference concludes by November 15 it is very doubtful if Premier King will be able to accept.

TOWN TAXES DISCOUNT DATE ADVANCED TO DECEMBER 1st

Owing to the delay in the marketing of the crop the Town Council has advanced the ten per cent discount date for the payment of town taxes to December the 1st, 1926.

Perhaps the most forlorn figures is a defeated candidate who remembers that he once complimented the voters on their good judgement.

The three things that do most to keep people away from church are the automobile, the radio and indifference.

"Leave it in! I had a fight when I first came to Annapolis. I got licked, but I fought until I was paralyzed from exhaustion."

These were the words of glorious defeat spoken by Rear Admiral Louis M. Nulton, Supt. of the U. S. Naval Academy, Annapolis, to Director Channing C. Cabanne of Metro-Goldwyn-Mayer.

Director Cabanne was selected by the Navy Department in Washington to picture "The Midshipman" by Carey Wilson, a photo-dramatic depiction of Naval Academy romance which is being shown at the Empress Theatre on Monday and Tuesday. To Ramon Novarro falls the honor of enacting the starring role.

As the production was supervised by the Naval Academy, Rear Admiral Nulton and Director Cabanne were going over the various scenes in the scenario and arranging the order in which they were to be filmed. They came to the sequence describing the first fight between Midshipman Randall (Ramon Novarro) and another naval student.

Rear Admiral Nulton read long and ponderously. Director Cabanne was beginning to have qualms about the validity of the scene. To be on the same side, the latter asked if it would not be advisable to eliminate the thrilling fight.

"No, indeed!" spoke up the Admiral, and then he told of his fist encounter. Who his adversary was, he refused to divulge, but he did confess that they are today the most inseparable friends in the whole Navy.

"The Naval Academy doesn't want fighting, but once ill feeling is started, it must be fought out, and that there will be none of it in the future. You will find that men in the Academy never nurse a grudge for that reason," said Rear Admiral Nulton.

night, and at noon today showed no indications of letting up. There are several inches of slush on the streets in Ottawa, and traffic is moving cautiously on the dangerous footing.

Heavy Gale on Lakes
Cleveland, Ohio, Nov. 2.—Lake traffic was tied up here early today by snow and a heavy wind which sometimes reached a velocity of 70 miles an hour.

Three ships rode at anchor outside the breakwater, unable to gain the harbor because of heavy seas. From the north came reports that the Thomas Matham, 300-foot freighter, was being pounded to pieces on the beach six miles south of Two Harbors, Minnesota. She was said to have run aground in a blizzard yesterday.

The heavy wind did considerable damage in the city.

Look For Storm Warnings
Goderich, Ont. Nov. 2.—The gulls are flying inshore today and ancient mariners of the inland seas are scanning the horizon for farther storm warnings. A fifty-mile gale from the northwest was lashing the waters of Lake Huron into a fury at noon. There were no signs of the gale abating at that hour.

No distress signals have yet been received from any lake freighters. Almost thirteen years ago, on November 9 and 10, 1913, hundreds of lives were lost on the Great Lakes when a nor-wester broke loose.

There's no place like home. At least there's no place like the real estate man describes when it's for sale.

A college president is expected to get funds or provide a religious atmosphere, depending on the section.

HISTORICAL CAIRN COMPLETED

"Fort Macleod."
To commemorate the arrival in October, 1874, after an arduous march of 1,000 miles of the North West Mounted Police and the building on the island immediately to the northwest of the town of the first fort, named after their commanding officer, Colonel J. F. Macleod, G.M.G.

"Their coming brought law and order into a wild and lawless country and laid the foundation of those social conditions which later made possible the settlement of the country and the birth of its cities and towns and villages and peaceful farms."

"Erected in 1926."
The foregoing is the inscription on the bronze shield that decorates the big eleven-foot stone cairn that has been erected in the square in Macleod commemorating the arrival of the North West Mounted Police in '74. The cairn has been presented to the town by the Canadian Historical Society, Ottawa. The shield bearing the inscription is decorated with the coats of arms of Canada, and also the N. W. M. P., while in the left hand top corner is an engraving of the early days of the Indian and buffalo, and in the right corner the busy cities of the west which demonstrates the marvelous evolution that has taken place in sixty years.

The cairn which is built of large cobble stones is ten feet square at the base and rises with a height of eleven feet in pyramid shape to two feet square at the summit. The inscription plate is placed in the centre on the west side, and the cairn is erected about ten yards to the east of the war memorial on Second Avenue. It is the intention to enclose these two monuments in the near future in suitable decorative enclosure, also the big bandstand which was erected by the girls of the Macleod Scarlet and Gold in commemoration of the coming of the North West Mounted to Macleod. When completed the park enclosure with the beautiful lighting effects and the three splendid historical monuments will be a big addition to the appearance of Macleod and also a great attraction for tourists and visitors.

GAS RATE DECISION TO BE MADE WITHIN TWO WEEKS

Edmonton, Nov. 1.—An order continuing present gas rates here until the recent application from the company is disposed of, was issued by the public utilities board on Saturday afternoon. The board also upholds its jurisdiction to deal with the whole case, so it is now likely that the city will take the next step in carrying the legal fight to the appeal court.

The interim order from the board has the effect of continuing the present gas rates, which are 48 cents, or 45 cents net. This continuation had been asked for by the company so it has won the first round in that respect. It was contended by the city that on the expiry of the three year period on November 1, the rates should revert to the franchise price of 25 cents and that the board had no right to continue or deal with present rates.

City officials will at once consider what steps should be taken to deal with the situation arising from the board's order. As has been frequently intimated, the city will in all likelihood carry the case at once to the appeal court.

The existing rates charged at Calgary for natural gas, which under the contracts between that city and the company expire November 1, shall, by an interim order of the board of public utilities issued on Saturday, continue in force until the final decision upon the recent res hearing. So far, the proceedings have mainly consisted of throwing ideas into a common pot and exchanging views.

Under the first head, equality of status in the empire, the committee's difficulty apparently lies in reaching definitions.

Not Seeking Separation
Premier Hertzog, who at the opening of the conference raised the issue, as it is understood, emphasized that he does not desire the separation of South Africa from the empire at all. What he wants is a more exact definition than now exists of the dominions' equality of status within the empire.

THURSDAY, NOVEMBER 4, 1926

INVESTIGATE THE PARENTS

Rev. Dr. E. V. Wyllie, Ottawa pastor, says that moral conditions in Ontario schools and colleges are "unspeakable." He demands an immediate investigation.

The young people of this generation are being investigated to death. What is wanted is less investigation of children and more investigation of parents.

The man or woman who allows the moral conditions in the home to relax and then expects some institution to take a child out of that home and make a model citizen out of him is a cowardly fool.

The parents of this generation are doing a lot of talking about the morals of their children. It is time they did some thinking about the morals of themselves.

Divorces are increasing. Prohibition has driven liquor from bars into the home. What sort of circumstances can you expect under those conditions?

The average parents today raise hell themselves, do as they please. Then they expect public schools to make mental giants out of their children, school doctors to take care of their little bodies and Sunday

schools to take full charge of their little souls.

It is no use frothing at the mouth and belaboring schools. It is no use waiting about the state of damnation young people are getting themselves into. If you want to trace immorality to its source, in 99 per cent of all cases you can trace it to the home.

If you want decent children, let's have decent parents.

If anybody is to be investigated, let's investigate those amiable men and women who leave the training of their children to the mechanized process of organized society.

There is no substitute for the home.

TRAINING FOR BUSINESS

The report of the chancellor of New York University, just issued, shows that in the term 1925-26 only 22 degrees of bachelor of arts were conferred as against 24 of bachelor of science in commerce and 691 of bachelor of commercial science.

The greatest universities of North America have at last admitted business into the sacred company of philosophy and the classics.

The commercial experience of the past 50 years has shown that business will richly repay any educational contributions that are made to it. The business man will prosper in direct proportion to the intensity of his training and the scientific accuracy of his methods.

The resident universities of this continent have been more or less forced to recognize the educational demands of business through the successful activity of extension universities. These correspondence organizations, delivering business at low cost, have placed commerce on a new scientific basis. They have

created a new demand for business training.

Sloppy business methods cost North America billions of dollars a year.

That business organizations are making a sincere and energetic effort to stop this appalling leak is evident not only in the extent of correspondence school activities, but in the new attention resident universities are paying to the subject.

CAL COOLIDGE, POLITICIAN

President Calvin Coolidge, says the news wire, has invited Will Rogers, eminent comedian, to spend a night at the White House.

Now Will Rogers is beloved of the yokels. Chewing his gun and swinging his lariat, he appeals to the masses as the last word in earthy wisdom.

So when Coolidge invites this people's jester to stay with him, he makes millions say "That fellow Coolidge must be pretty human after all."

And that is just what Coolidge wants them to say.

Anybody who thinks Calvin Coolidge is not just about the smartest politician in the States has another think coming. When it comes to making big gestures, he has them all beaten. And he does it all in pantomime.

Teddy Roosevelt made a reputation by talking. Roosevelt could say more smart things in an hour than any other man of his time.

Coolidge never says a word. He keeps his mouth closed as tight as a clam. But never a day passes but what he makes some big silent gesture that packs a political wallop worth ten of Roosevelt's speeches.

**THE RED CROSS MANDATE
FROM THE LEAGUE OF
NATIONS**

The Annual Appeal of the Canadian Red Cross is once again before the public, who are asked to express their interest in the humanitarian work of the Society in the practical way of joining as members and by contributions in cash. Although nearly eight years have passed since Armistice, and in spite of the fact that Red Cross has been functioning vigorously during the whole of that time, there are still some people who have but a hazy idea of what Red Cross is all about, and where the money goes.

The Head Office of the Society has met that need for information in an excellent little pamphlet, which presents concisely the aims and services of the Organization.

To quote this leaflet: "Red Cross was not ended when the burlesque 'Cease Fire' at the Armistice. At the Versailles Conference it was determined that organized Red Cross Societies could give further in valuable aid to sick and suffering hum-

anity. In consequence, the Covenant of the League of Nations included this Article XXV:— "The members of the League agree to encourage and promote the establishment and co-operation of duly authorized national Red Cross organizations having as purposes 'The Improvement of Health, the Prevention of Disease, and the Mitigation of Suffering throughout the World.'"

The Canadian Red Cross Society is striving to fulfil this obligation and asks the citizens to endorse its efforts by enrolling themselves as members.

BIRDS OF WESTERN CANADA

A volume of unusual public interest has just been issued by the Victoria Memorial Museum. This is a copiously illustrated work on the "Birds of Western Canada," by P. A. Taverner. 315 text figures and 84 coloured plates, and is larger and fuller than "The Birds of Eastern Canada," published a few years ago. It contains full descriptive matter for distinguishing the different

BUY AT HOME SPEND YOUR MONEY IN MACLEOD

Purchases representing thousands of dollars are lost to us, to our trade, to our clerks and employees, to our laborers and artisans, to all the people of Macleod who exist on the products of their work. This money, if spent at home, would help to recreate Macleod financially, give a wider field of activities in business, would be helpful to every resident of this town.

If we purchased regularly from local merchants, this money would circulate in Macleod in a welcome manner. Our merchants merit our patronage; it is to our interest, and the duty of all of us to encourage the local merchant. He is one of us, he lives among us, he has the right to be encouraged by us, he is anxious to have our custom, and to give us satisfaction. We should under all circumstances give him preference, price for price, quality for quality. And nearly always the price that our local merchant asks is, if we compare the quality, just as cheap as that of the outside merchant.

Never purchase merchandise by catalogues from foreign houses before assuring yourself that you cannot procure the same articles, of the same quality (and frequently of better quality) at the same price from your local merchant.

CAPITAL GOSSIP AND PROV. NEWS

Important Oil Developments

Important developments in the oil fields of Alberta were recorded during the past week. In the test well being sunk by the Imperial Oil Company in the old Bow Island gas field west of Medicine Hat, the company announces that cores taken from the well showed oil at three different levels and that the last core at 2212 feet was encouraging. The oil appears to be of a medium gravity crude. The company's drillers on the Ribstone formation south-east of Edmonton found strong oil showings in the cores taken at 1,880 feet.

During the week announcement was made of the payment of the first dividend by the Royalty Company, which operates the well in the Turner Valley which brings in 15,000 barrels of gasoline monthly. The dividend was 25 cents a share or \$2.50 on the basis of the original shares.

There are now about 35 strings of tools working in the Turner Valley which shows the extent of the field.

New Railway Lines

Two new branch lines will be built by the C. P. R. next year. A line to the Gem colony will connect with the main line at Bassano and a line to the Bow Slope will link up at Castle.

Exhibits For International Show

Those farmers in the province who plan to exhibit seed grain at the Chicago International Show this year are reminded that entries close at Chicago on November 10th. Any entries received at the Seed Branch of the Department of Agriculture at Edmonton by November 8th will be in sufficient time. Exhibits of grain must be in Chicago by November 22nd, so that farmers who send their exhibits to the Seed Cleaning Plant at Edmonton are advised to have them there not later than November 10th to ensure their reaching Chicago in time. The Department will pay carrying charges on all exhibits sent to the plant at Edmonton.

Livestock For Chicago Fair

Two loads of prize livestock will go forward from Alberta to the Chicago International Show this month. Under the auspices of the Department of Agriculture and University, some fine animals will go forward. O. A. Boggs, of Daysland will have six head of Herefords; F. Callicott, of Crossfield will have six head of Herefords; G. K. Allenby, of Crossfield will have dairy shorthorns; Alex. Mitchell, of Calgary will have a Holstein bull, and N. P. Fleming will have a Hereford steer. The University will send the following: eight Aberdeen Angus, representing the herds of A. E. and E. A. Clemens, Sedgwick; Wm. Gibb, Killam; O. G. Granlin, Stavely; G. Ellett, Strathcona; Vauxhall Stock Farms, Vauxhall; C. H. Richardson, Bowden, and two animals bred at the University. Five Short-

horns including senior yearling from G. M. Thomas, Youngstown; junior yearling from A. S. McDougall, Champion; one senior calf and two junior calves bred at the University. Three Herefords, a junior yearling from Parlow, Calgary, and two junior yearlings bred at the University. One crossbred senior heifer calf bred at the University. There is also an exhibit of a small flock of Hampshire sheep for Toronto.

More New Land Under Plow

More new land has been broken this year in the province than for some years according to reports received. This holds out the prospect for a considerably increased acreage next year.

More Large Yields Reported

Reports of large wheat yields are the order of the day. From the 100 acre farm of Dr. McMillan near Granum, the report comes of an average of 60 bushels of Marquis or summer-fallow land.

Gets Important Post

Mr. Leonard D. Nesbitt, former editor of the Bassano Mail, and Weekly Newspapers Association, has been appointed Publicity Agent for the Alberta Wheat Pool. Mr. Andrew Cairns, of the University of Minnesota, is to head the new educational department of the Wheat Pool.

CO-OPERATION IS KEYNOTE OF ALBERTA MOTOR LEAGUE AND GOOD ROADS ASSOCIATION

Automobile owners of Alberta are now provided with effective and practicable means of furthering their own interests, obtaining protection in the way of legislation, advancing the cause of better roads and building up a mutual service organization which will offer the same facilities that any commercial enterprise is able to provide at greatly reduced cost.

This new organization is known as the Alberta Motor League and Good Roads Association. Its keynote is co-operation. Its benefits and privileges will extend to every part of the province. Its members will be affiliated with the United Motor League of all the provinces of Canada and with the various automobile associations of the United States.

The Alberta Motor League was formally launched into active organization work at a meeting held in Edmonton recently. Representatives were present from many parts of the province, and all expressed the utmost enthusiasm in promoting the interests of such a mutual service organization. Some months previously, the character for an association of this nature was obtained by automobile club officers of Edmonton and Calgary, and as a result of the recent meeting the league will henceforth be an important factor in the life of the province.

Foremost in the plans of the organization will be the furthering of better highway work in the province. Legislation affecting the interests of automobile owners will also be look-

As a progressive Dairyman desiring to secure maximum profits from my milk herd, I realize the necessity of adhering to an organized schedule of care, feeding and handling.

Any cow in my herd suspected of being a trouble maker or otherwise lacking in necessary qualifications shall undergo a fair, but thorough trial. What I want on my herd must count back to me at a profit.

During the hot months, whenever possible, I shall supply my herd with a cool, shaded, outside resting place, where they may chew their cud in peace and comfort on the blessings of being a provider rather than a parasite.

A dry condition like that pictured here, rather than a fat one, is better for my herd. I shall clip and quickly clean thoroughly by spraying with a damp cloth.

The comfort of the animal is important. Thorough cleaning aided by periodical clipping about flanks, udders and underlines during stable months and all over the body when turning out in the spring shall be part of my program. Clean animals, clean milk with low bacteria count.

The growth in the numbers of cow testing associations convinces me that membership in one is a good thing. I place my association full support and co-operation.

The dairy or creamery that buys my milk must be a quality and sanitation as much as I do. They must carry on from the point beyond which I have no control.

Then when my milk is bottled I shall know I am proud for my efforts. I shall get more milk and more money for my milk and the people of clean and better milk shall spread throughout the land.

Macleod -- Alberta

western division of the United Church, with headquarters at Winnipeg.

Born to Mr. and Mrs. P. Pascal at Macleod Hospital on Tuesday, November 2nd, a daughter.

Mr. and Mrs. W. F. Hookham, of Chicago, are visitors in Macleod this week, the guests of Mr. Hookham's sister, Mrs. W. H. Wilkinson.

Mrs. S. P. Fraser, of New York, formerly of Macleod, accompanied by Laurie Fraser, were the guests of Mr. and Mrs. R. H. Richardson for a few days this week.

Miss A. Chalmers, of Glasgow, Scotland, who has been visiting her brother H. C. Chalmers, Lethbridge spent the past week in Macleod, the guest of Mrs. Jas. Ringland.

Married—Miss Margaret May Jenkins, oldest daughter of Mr. and Mrs. W. C. Jenkins, Macleod, to Mr. W. H. Morgan, of Calgary, at Christ Church, Macleod, on Wednesday, November 3rd.

The Ladies' Aid of St. Andrew's Church held a Pantry Sale in the church hall on Saturday afternoon which was well attended and everything sold, realizing a good addition to the funds of the Aid.

Mr. and Mrs. J. Swinerton and Miss Margaret are this week visitors at the Bar U Ranch as the guests of the Hon. A. J. McLean. Before returning they also expect to visit the Prince of Wales Ranch.

The Macleod Town Council met on Monday evening, and decided to extend the date of the 10% discount on payment of taxes till December 1st. The only other business coming before the Council was the usual routine.

Mrs. J. T. McGregor's section of the Ladies' Aid of the United Church held a sale of home cooking in Reach & Co's store on Saturday afternoon. Everything was sold and a considerable sum was added to the funds of the Aid.

Threshing is practically completed in the Macleod district, two or three machines are still working in the Orton section, east of Macleod, but most of them will finish this week if the weather continues fine. The yields and quality are turning out better than at first anticipated.

INCREDIBLE VALUE

Reports from all provinces indicate that the Family Herald and Weekly Star of Montreal, at the price of \$1.00 a year, is sweeping the country.

At the price of \$1.00 a year, this big weekly journal is the marvel of the newspaper world. Notwithstanding the reduction in price (from \$2.00 to \$1.00) every big feature of this great paper has been faithfully maintained, and the publishers are ever watchful for opportunities to make improvements.

When one takes into consideration the huge volume, wide variety and high quality of the reading matter in every issue of the Family Herald, the question uppermost in the reader's mind is, "how can it be produced at the price?" It is a combination of a complete farm journal, family magazine and weekly newspaper—at a cost of less than TWO CENTS weekly.

Winter is rapidly approaching. For this coming winter's reading there is no better combination than your own local paper and the Family Herald and Weekly Star. Subscriptions may be left at The Times office.

THE HOMESTEAD

When skies are growing warm and bright,
And in the woodlawn bowers
The springtime in her pale, faint robes

Is calling up the flowers,
When all with naked, little feet
The children in the morn
Go forth, and in the furrows drop
The seeds of yellow corn;
What a beautiful embodiment
Of ease devoid of pride
Is the good old-fashioned homestead,
With its doors set open wide!

But when the happiest time is come,
That to the year belongs,
When all the vales are filled with gold
And all the air with songs;
When fields of yet unripened grain,
And yet ungathered stores
Remind the thrifty husbandman
Of amplest threshing-floors,
How pleasant from the din and dust
Of the thoroughfare aloof,
Stands the old-fashioned homestead,
With steep and mossy roof!
—Alice Cary.

REACH & COMPANY, Ltd.

GENERAL MERCHANTS, DRY GOODS, BOOTS AND SHOES
GROCERIES

Silk Hosiery from 50c upwards, every shade. Ladies' Silk and Wool Hose, Vests, Bloomers, Steppins and Vests, made from the finest quality of artificial silk—Selasilk—a fabric made of this material has all the charm and daintiness of the natural product.

There was a young lady named Jeppins—
Who purchased a pair of blue Step-ins—
While dressing she tripped,
Her garment she ripped;
For she made a mistake in her Step-ins.

With our wear she could not have made that mistake, as the material is stronger and of the best workmanship. Children's Skirts and Dresses are made of such a small quantity of stuff, and great simplicity. It is so easy to pick out the makings of a dress, also it is such fun for a mother to buy a Butterick pattern.

We have lots of Remnants and Short Pieces of Dress Goods, that are always cheap just before stocktaking and Xmas.

MEN'S AND BOY'S SUITS

We want to clear out Youth's Overcoats, Women's Coats and Dresses at your own price. Stanfield's Underwear, medium weight, two-piece suit for boy's and youth's at cost. As we are cleaning out that weight. Men who want comfort in lace Bluchers should give us a trial. These are the easiest shoe worn, wide toe, kid tops. You can re-sole them as often as you want, and you have comfort.

Solving a Difficult Problem

THE most difficult problem that confronts you at Christmas time is to find something that will carry your greetings and good wishes with just the proper shade of feeling.

Your Photograph is the Gift Perfect. It carries to your friends and loved ones a world of sentiment, and it's a gift that takes forethought and only YOU can give it. We are Master Photo Finishers which means we keep up to the minute in every way and produce Photos of distinction.

Give your Photograph this Christmas — It will solve many of your Xmas problems.
